Application Instructions

Vary your rates according to soil test results and desired turf quality and maintenance programs.

General Information

Shaw's 5-0-40 is a superior quality fertilizer designed for high quality turf maintenance where slow release feeding is needed. This product contains 100% of the potash from polymer coated sulfate of potash .

Regular use will supply the needed nutrients for thick turf with excellent color while also improving resistance to disease, wear and environmental stress.

The following settings are approximate for applying contents of this package. Settings are based on average walking speed. Reduce settings for slower speed and increase for higher speed. Check your spreader on 250 sq. ft. and adjust to apply ¼ of 1,000 sq.ft. rate.

PLEASE NOTE: These settings are furnished as a starting guide only.
