Mixing and Handling Instructions

Add water to tank mix leaving enough room to add other products. Add 15-0-0 and agitate. Add other products in this order: **1.** Urea and other N-P-K fertilizers, **2.** Pesticides and fungicides, **3.** Add herbicides last. Agitate between each addition. Use all of the tank mix a few hours after mixing. Do not leave overnight. Be sure to agitate before spraying. Never add concentrates together. Check chemical mixture compatibility using a jar test prior to application.

15-0-0 as a concentrate is corrosive and should be stored in its original container. Store in a cool place with the cap tightly closed. Do not apply to any area not specified on label. Avoid contact with unfinished wood products, painted surfaces or concrete as this product may cause staining.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rains are expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.
