### General Information

Shaw's™ 24-0-12 is a premium fertilizer for turf where superior quality is required. This product contains 35% of the nitrogen from Polymer-Encapsulated urea (Surfcote). Surfcote is a new controlled release technology that delivers a more uniform and predictable release of nutrient for a period of up to 90 days. For Extended Release Technology, trust in Surfcote to deliver the lasting performance you demand.

Regular use will help supply the needed nutrients for thick turf with excellent color while also improving resistance to disease, wear and environmental stress.

The following settings are approximate for applying contents of this package. Settings are based on average walking speed. Reduce settings for slower speed and increase for higher speed. Check your spreader on 250 sq. ft. and adjust to apply ¼ of 1,000 sq.ft. rate. **PLEASE NOTE:** These settings are furnished as a starting guide only.
